

The Wealthy Mind™

A Money Workshop for Your Life!

A two day program that will change how you think about money and wealth

This is a practical, skill based program where you will learn cutting edge skills to identify and change the limiting beliefs that are holding you back!

The Wealthy Mind™

Have you noticed that when you are truly congruent about achieving a goal or a dream, it seems to come easily? It is almost like the universe conspires to give it to you.

When you are in conflict (even unconscious conflict) or are unclear about you heart's desire, creating what you want is difficult.

People who live wealthy lives do so because their beliefs about themselves and life are in alignment with their dreams.

Tim and Kris Hallbom, the developers of this program, have been modeling how we create our life experiences using NLP, Chaos Theory, and Systemic Thinking principles.

Through their 20 years of research, they have developed life changing processes to help you attract what you really want by releasing the limiting beliefs that are holding you back.

By participating in the Wealthy Mind™ Program, you will discover exciting new ways to use your mind to create more wealth and success in your life.

Shatter the Ceilings That Are Limiting Your Success and Go For What You Want!

To shatter the self-imposed ceilings that are limiting your success, you'll work in four areas during The Wealthy Mind Program:

1. Identify your belief systems. Discover how to unearth the important beliefs that drive your attitude and acceptance of success and wealth.
2. Learn how to get closure and "drop off" things that are limiting your success. Discover how to find the energy drains....and how to let them go.
3. Discover family themes that affect your success and gain an understanding of the events that helped shape your beliefs about money....so you can take action to change them.
4. Find new ways to attract the things you want.

Rev Kathleen Geier brings a wealth of experience to this workshop. A wonderful blend of practical business applications; Religious Science Principles and Practice; NLP – tools she utilizes in her every day. Rev. Kathleen holds a MBA in Accounting & Finance; Masters in Consciousness from Holmes Institute; Masters in Spiritual Peacemaking; NLP Master Practitioner. Kathleen recently utilized tools taught in this workshop to compete and complete her first Triathlon, and is currently training for her next amazing journey....

Your most important asset for achieving wealth in any life area is the quality of your thinking. This incredible program shows you how to create the attitudes, behaviors, and ways of thinking that can bring about a happier, more prosperous life.

How often do you hear these kinds of limiting statements?

- * You have to work hard to make money.
- * Success is for other people. It's not for me.
- * No matter what I do, I will never have enough.
- * Money is hard to manage.
- * It is difficult to make a lot of money.
- * I don't have what it takes to achieve what I really want
- * I'll never be rich!
- * I don't seem to deserve to have what I want

If you believe any of the above (or similar statements), they may be limiting your success.

Now is the time to take action—this is your opportunity to explore and change your deeper thinking and shift your ideas about what is possible for you!
